STANDARD FEATURES
- V-TEMP™ Electronic Control System
- High Performance, Balanced, Top-Mounted Refrigeration
- Environmentally Safe R-134a Refrigerant
- Energy Efficient, Dual-Speed EC Evaporator Fan Motor(s)
- Plasticized Evaporator Fin Coils
- Non-Electric Condensate Evaporator
- Foamed-in-Place Polyurethane Insulation
- Heavy Duty Cylinder Locks
- Self-Closing Doors with 120° Hold Open Feature
- Cam-Lift Hinges, Guaranteed for Life
- Ergonomically Correct Door Handles, Guaranteed for Life
- Adjustable Door Wiper Gasket(s)
- Stainless Steel Floor
- Hinged Front Shroud Makes Condenser Cleaning Easier
- Proximity Door Switch Activates Interior Lighting
- One Piece, Snap-In Magnetic Door Gasket(s)
- Anti-Condensate Door Perimeter Heaters
- Stainless Steel Interior Door Liner
- Energy Saving Thermal Breaker Caps, Guaranteed for Life
- Removable Ramps
- Accepts Mobile Storage Racks up to 27” W x 29” D x 64.5” H
- Cord and Plug (see electrical for details)

OPTIONS AND ACCESSORIES
- Full Size Glass Doors
- Change Door Swing
- Remote Models
- Correctional Facilities Options
- Stainless Steel Case Back and Shroud
- Fluorescent Lighting
- LED Lighting
- Stainless Steel Wire Shelves
- Shelf Pilaster Strips
- Exterior Laminate Décor
- Optional Voltages
- FLEXTEMP Performance Mode
- USB Data Recorder
- RS-485 Serial Interface
- Two (2) Year Service Warranty

NOTE: Not all marks refer to all models

1 Year Parts and Labor Warranty • 5 Year Compressor Warranty
2 Year V-TEMP™ Control Warranty

2 Year V-TEMP™ Control Warranty

APPROVALS:

Central Restaurant Products
A manager’s “lock-out” feature is provided to safeguard pre-determined control set temperature alarm, power supply interruption, door ajar and “clean condenser” alarms. The front shroud lifts up for easy access when cleaning the condenser unit.

INTERIOR LIGHT SWITCH, LED temperature indicator in °C or °F, a HI/LO audio/visual temperature alarm, and a warranty. This durable, water-resistant microprocessor monitors and controls the entire operation of the cabinet.

The easy-to-use V-TEMP™ Control is provided standard with a two-year parts and labor warranty. This feature is ideal for seasonal menu changes and items with specific temperature requirements for dairy, meat, fish, or poultry.

A FLEXTEMP™ control system is available as an option. FLEXTEMP™ provides the ability to select a unique temperature from 28°F to 40°F. This optional feature is ideal for seasonal menu changes and items with specific temperature requirements for dairy, meat, fish, or poultry.

A HAACP Event Indicator/Memory feature announces and records up to nine alarm events. Unique to the V-TEMP™ are two standard modes of operation: FLEXTEMP™ and SUPERCOOL. FLEXTEMP™ provides the ability to select a unique temperature from 28°F to 40°F. This optional feature is ideal for seasonal menu changes and items with specific temperature requirements for dairy, meat, fish, or poultry.

We reserve the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment.

---

### CABINET CONSTRUCTION

The cabinet front and doors are constructed of heavy gauge, polished stainless steel to maintain an attractive appearance after years of heavy use. Polyurethane foam insulation throughout ensures the ultimate in energy efficiency. The front shroud lifts up for easy access when cleaning the condenser unit.

### DOOR CONSTRUCTION

The doors are heavy gauge, polished stainless steel with a stainless steel interior liner. Each door is provided with a cylinder lock and ergonomically correct vertical handle. The door hinges are self-closing and have a hold-open feature at 120° which facilitates product loading. Proximity switches energize the recessed interior incandescent lighting when the door is opened. Humidity control wires around the door jamb prevent condensation from forming on the front of the cabinet in high humidity environments. The wires are concealed by a high-impact, non-conducting thermal breaker cap.

### REFRIGERATION SYSTEM

All components of the high-efficiency, air-cooled, self-contained refrigeration system are mounted on top of the cabinet out of the food storage zone providing greater usable storage space. Environmentally friendly R-134a refrigerant is efficiently metered by a capillary system providing a constant, safe operating temperature and quick “recovery” under the most demanding conditions. The hermetically sealed systems are designed to operate at 38°F. Each cooling coil has plasticized fin coils to resist food acids and dual-speed EC fan motor(s) for greater cooling capacity and efficiency. All condensate water is disposed of automatically by the energy-efficient, non-electric condensate evaporator.

### INTERIOR STORAGE ARRANGEMENTS

Each door opening accepts a mobile storage rack measuring up to 27” W x 29” D x 64.5” H. Optional shelf pilasters and wire shelves are available.

### V-TEMP™ CONTROL SYSTEM

The easy-to-use V-TEMP™ Control is provided standard with a two-year parts and labor warranty. This durable, water-resistant microprocessor monitors and controls the entire temperature maintenance process. It includes an ON/OFF switch, manual defrost, interior light switch, LED temperature indicator in °C or °F, a Hi/Lo audio/visual temperature alarm, power supply interruption, door ajar and “clean condenser” alarms. A manager’s “lock-out” feature is provided to safeguard pre-determined control settings. A HAACP Event Indicator/Memory feature announces and records up to nine (9) alarm events. Unique to the V-TEMP™ are two standard modes of operation:

- **SUPERCOOL** - Provides a lower “set-point” refrigeration condition for a set period of time when food has just been loaded into the refrigerator and needs to be quickly brought back down to a safe temperature.

- **ENERGY SAVER** - The cabinet automatically reverts to the energy saving mode when there are no door openings for four hours.

A FLEXTEMP™ mode of operation is available as an option. FLEXTEMP™ provides the ability to select a unique temperature from 28°F to 40°F. This optional feature is ideal for seasonal menu changes and items with specific temperature requirements for dairy, meat, fish, or poultry.
